Contents of Volume 7

January

A. M. BARNETT and A. E. JAHN — 1 Pattern and persistence of a nearshore planktonic ecosystem off Southern California

P. D. GLORIOSO — 27 Temperature distribution related to shelf–sea fronts on the Patagonian Shelf

D. G. BOWERS and J. H. SIMPSON — 35 Mean position of tidal fronts in European-shelf seas

G. SAVIDGE and H. J. LENNON — 45 Hydrography and phytoplankton distributions in north-west Scottish waters

M. FRANKIGNOULLE and A. DISTECHE — 67 Study of the transmission of the diurnal CO_2 concentration changes observed above a *Posidonia* seagrass bed: a method to determine the turbulent diffusion coefficient in an 8-m water column

J. L. VALENTIN, D. L. ANDRÉ and S. A. JACOB — 77 Hydrobiology in the Cabo Frio (Brazil) upwelling: two-dimensional structure and variability during a wind cycle

E. D. TRAGANZA, D. G. REDALJE and R. W. GARWOOD — 89 Chemical flux, mixed layer entrainment and phytoplankton blooms at upwelling fronts in the California coastal zone

February

R. D. KENNEY and H. E. WINN — 107 Cetacean biomass densities near submarine canyons compared to adjacent shelf/slope areas

D. J. TRANTER and G. S. LEECH — 115 Factors influencing the standing crop of phytoplankton on the Australian Northwest Shelf seaward of the 40 m isobath

D. MYRHAUG — 135 Comparison of a simple planetary boundary layer model with measurements of a turbulent boundary layer under pack ice

T. YANAGI and T. KOIKE — 149 Seasonal variation in thermohaline and tidal fronts, Seto Inland Sea, Japan

M. J. FURNAS and T. J. SMAYDA — 161 Inputs of subthermocline waters and nitrate onto the Campeche Bank

J. H. MIDDLETON and L. BODE — 177 Poincaré waves obliquely incident to a continental shelf

T. J. SHERWIN — 191 Inertial oscillations in the Irish Sea

P. M. HOLLIGAN, S. M. TURNER and P. S. LISS — 213 Measurements of dimethyl sulphide in frontal regions

List of Contents for *Deep-Sea Research* — i

March

G. GODIN — 225 Drift of the node of the semidiurnal tide in Northumberland Strait

T. S. HOPKINS and D. A. DIETERLE — 237 Analysis of the baroclinic circulation of the New York Bight with a 3-D diagnostic model

D. PRANDLE — 267 Response of the N.W. European Shelf Sea at subtidal frequencies

G. ABRAHAM, H. GERRITSEN and G. J. H. LINDIJER — 285 Subgrid tidally induced residual circulations

J. R. NELSON, J. R. BEERS, R. W. EPPLEY, G. A. JACKSON, J. J. MCCARTHY and A. SOUTAR — 307 A particle flux study in the Santa Monica – San Pedro Basin off Los Angeles: particle flux, primary production, and transmissometer survey

List of Contents for *Deep-Sea Research* — i

April

Y. WANG and D. G. AUBREY — 329 The characteristics of the China coastline

T. BROWN — 351 Kelvin wave reflection at an oscillating boundary with applications to the North Sea

D. R. JOHNSON — 367 Nearshore surface currents in the Chesapeake Bight during summer

F. E. WERNER — 379 A numerical study of secondary flows over continental shelf edges

T. M. HAMMOND, C. B. PATTIARATCHI, D. ECCLES, M. J. OSBORNE, L. A. NASH and M. B. COLLINS — 411 Ocean Surface Current Radar (OSCR) vector measurements on the inner continental shelf

List of Contents for *Deep-Sea Research* — i

May

D. M. GLOVER and W. S. REEBURGH — 433 Radon-222 and radium-226 in southeastern Bering Sea shelf waters and sediment

A. J. WILLMOTT and P. D. EDWARDS — 457 A numerical model for the generation of tidally forced nonlinear internal waves over topography

A. D. HEATHERSHAW, A. L. NEW and P. D. EDWARDS — 485 Internal tides and sediment transport at the shelf break in the Celtic Sea

C. B. FANDRY and D. R. JACKETT — 519 Tides on continental shelves with longshore topographic variations

List of Contents for *Deep-Sea Research* — i

June

L. ZOCCOLOTTI and E. SALUSTI — 535 Observations of a vein of very dense marine water in the southern Adriatic Sea

D. A. CACCHIONE, D. E. DRAKE, M. E. FIELD and G. B. TATE — 553 Sea-floor gouges caused by migrating gray whales off northern California

M. TOMCZAK — 561 The Bass Strait Water Cascade during summer 1981 – 1982

R. K. REED — 573 Salinity characteristics and flow of the Alaska Coastal Current

M. ORLIĆ — 577 Oscillations of the inertia period on the Adriatic Sea shelf

K. F. DRINKWATER and E. P. JONES — 599 Density stratification, nutrient and chlorophyll distributions in the Hudson Strait region during summer and their relation to tidal mixing

J. A. MOODY, B. BUTMAN and M. H. BOTHNER — 609 Near-bottom suspended matter concentration on the Continental Shelf during storms: estimates based on *in situ* observations of light transmission and a particle size dependent transmissometer calibration

A. R. SOLOW — 629 The application of eigenanalysis to tide-gauge records of relative sea level

List of Contents for *Deep-Sea Research* — i

July

A. M. DAVIES and R. A. FLATHER — 643 Computing extreme meteorologically induced currents, with application to the northwest European continental shelf

P. W. BALLS — 685 Dispersion of dissolved trace metals from the Irish Sea into Scottish coastal waters

H. MITSUDERA and K. HANAWA — 699 Effects of bottom friction on continental shelf waves

J. MA ROBLES and S. G. MARINONE — 715 Seasonal and interannual thermohaline variability in the Guaymas Basin of the Gulf of California

N. D. WALKER, L. J. ROUSE, Jr and O. K. HUH — 735 Response of subtropical shallow-water environments to cold-air outbreak events: satellite radiometry and heat flux modeling

M. J. HEALY RIDGE and B. CARSON — 759 Sediment transport on the Washington continental shelf: estimates of dispersal rates from Mount St. Helens ash

M. G. G. FOREMAN — 773 An accuracy analysis of selected finite difference methods for shelf waves

F. MÜLLER-KARGER and V. ALEXANDER 805 Nitrogen dynamics in a marginal sea-ice zone

Announcement 825

List of Contents for *Deep-Sea Research* i

August

J. B. WICKHAM, A. A. BIRD and C. N. K. MOOERS 827 Mean and variable flow over the Central California continental margin, 1978–1980

W. R. CRAWFORD and P. GREISMAN 851 Investigation of permanent eddies in Dixon Entrance, British Columbia

P. C. FIEDLER and H. J. BERNARD 871 Tuna aggregation and feeding near fronts observed in satellite imagery

W. W. SCHROEDER, S. P. DINNEL, W. J. WISEMAN, Jr and W. J. MERRELL, Jr 883 Circulation patterns inferred from the movement of detached buoys in the eastern Gulf of Mexico

A. M. SPRINGER, E. C. MURPHY, D. G. ROSENEAU, C. P. MCROY and B. A. COOPER 895 The paradox of pelagic food webs in the northern Bering Sea—I. Seabird food habits

S. J. PRINSENBERG and E. B. BENNETT 913 Mixing and transports in Barrow Strait, the central part of the Northwest Passage

R. B. HEYWOOD and J. PRIDDLE 937 Retention of phytoplankton by an eddy

J. M. HUTHNANCE 957 Along-shelf evolution and sea levels across the continental slope

Instruments and Methods
D. R. JOHNSON 975 A surface current meter

September

D. A. GRIFFIN and J. H. MIDDLETON 987 Steady wind-driven flow in long channels or lakes

P. T. STRUB and T. M. POWELL 1001 Surface temperature and transport in Lake Tahoe: inferences from satellite (AVHRR) imagery

R. L. GORDON and J. M. HUTHNANCE 1015 Storm-driven continental shelf waves over the Scottish continental shelf

M. J. FURNAS and A. W. MITCHELL 1049 Phytoplankton dynamics in the central Great Barrier Reef — II. Primary production

A. J. G. NURSER and J. A. JOHNSON 1063 Secondary upwelling over a smooth shelf break

R. MAZÉ 1079 Generation and propagation of non-linear internal waves induced by the tide over a continental slope

D. G. BOWERS and G. W. LENNON 1105 Observations of stratified flow over a bottom gradient in a coastal sea

J. GRANT, F. VOLCKAERT and D. L. ROBERTS-REGAN — 1123 Resuspendable organic matter in Nova Scotian Shelf and Slope sediments

List of Contents for *Deep-Sea Research* — i

October

L. E. SAHL and M. A. H. MARSDEN — 1139 Shelf sediment dispersal during the dry season, Princess Charlotte Bay, Great Barrier Reef, Australia

D. HAINBUCHER, T. POHLMANN and J. BACKHAUS — 1161 Transport of conservative passive tracers in the North Sea: first results of a circulation and transport model

R. D. PINGREE and D. K. GRIFFITHS — 1181 Tidal friction for semidiurnal tides

U. SCHAUER — 1211 Determination of bottom boundary layer parameters at two shallow sea sites using the profile method

N. DIDDEN — 1231 Performance evaluation of a shipboard 115-kHz acoustic Doppler current profiler

H. NISHIMURA and Y. NAKAMURA — 1245 A new method of estimating vertical diffusion coefficient

Instruments and Methods
H. HONJI, A. KANEKO and K. KAWATATE — 1257 Self-governing profiling system

List of Contents for *Deep-Sea Research*, Vol. 34, No. 9A — i

November/December

Dynamics of Turbid Coastal Environments (EBSA 16th Annual Symposium)

Preface — 1267

Physical Processes
Invited papers
P.-Y. MAA and A. J. MEHTA — 1269 Mud erosion by waves: a laboratory study

W. R. PARKER — 1285 Observations on fine sediment transport phenomena in turbid coastal environments

Contributed papers
C. L. AMOS — 1295 Fine-grained sediment transport in Chignecto Bay, Bay of Fundy, Canada

J. AVOINE and C. LARSONNEUR — 1301 Dynamics and behaviour of suspended sediment in macrotidal estuaries along the south coast of the English Channel

J. H. SIMPSON and J. BROWN — 1307 The interpretation of visible band imagery of turbid shallow seas in terms of the distribution of suspended particulates

D. J. WEIR and J. MCMANUS — 1315 The role of wind in generating turbidity maxima in the Tay Estuary

Chemical Processes
Invited papers
A. C. M. BOURG — 1319 Trace metal adsorption modelling and particle–water interactions in estuarine environments

W. SALOMONS and W. G. MOOK — 1333 Natural tracers for sediment transport studies

Contributed papers
A. ABARNOU, J. AVOINE, J. P. DUPONT, R. LAFITE and S. SIMON — 1345 Role of suspended sediments on the distribution of PCB in the Seine Estuary (France)

A. W. MORRIS, A. J. BALE, R. J. M. HOWLAND, D. H. LORING and R. T. T. RANTALA — 1351 Controls of the chemical composition of particle populations in a macrotidal estuary (Tamar Estuary, U.K.)

J. G. SANDERS and G. R. ABBE — 1357 The role of suspended sediments and phytoplankton in the partitioning and transport of silver in estuaries

J. G. TITLEY, G. A. GLEGG, D. R. GLASSON and G. E. MILLWARD — 1363 Surface areas and porosities of particulate matter in turbid estuaries

Biological Processes
Invited papers
J. E. CLOERN — 1367 Turbidity as a control on phytoplankton biomass and productivity in estuaries

R. T. WRIGHT, R. B. COFFIN and M. E. LEBO — 1383 Dynamics of planktonic bacteria and heterotrophic microflagellates in the Parker Estuary, northern Massachusetts

Contributed papers
D. BAIRD, P. E. D. WINTER and G. WENDT — 1399 The flux of particulate material through a well-mixed estuary

F. COLIJN, W. ADMIRAAL, J. W. BARETTA and P. RUARDIJ — 1405 Primary production in a turbid estuary, the Ems-Dollard: field and model studies

D. P. CYRUS and S. J. M. BLABER — 1411 The influence of turbidity on juvenile marine fish in the estuaries of Natal, South Africa

M. BRYLINSKY and G. R. DABORN — 1417 Community structure and productivity of the Cornwallis Estuary, Minas Basin

R. F. DAME — 1421 The net flux of inorganic matter by an intertidal oyster reef

D. A. PILGRIM — 1425 Measurement and estimation of the extinction coefficient in turbid estuarine waters

D. H. PLUMMER, N. J. P. OWENS and R. A. HERBERT — 1429 Bacteria – particle interactions in turbid estuarine environments

K. G. SELLNER and M. H. BUNDY — 1435 Preliminary results of experiments to determine the effects of suspended sediments on the estuarine copepod *Eurytemora affinis*

H. T. YAP, J.-A. VON OERTZEN and U. SCHIEWER — 1439 Effects of turbidity caused by nutrient loading on benthic dynamics

Applications

Invited papers

W. H. McANALLY Jr and S. A. ADAMEC Jr — 1445 Designing open water disposal for dredged muddy sediments

R. J. PENTREATH — 1457 The interaction with suspended and settled sedimentary materials of long-lived radionuclides discharged into United Kingdom coastal waters

Contributed papers

J. W. BARETTA and P. RUARDIJ — 1471 Evaluation of the Ems Estuary ecosystem model

D. C. GORDON Jr, P. D. KEIZER, P. SCHWINGHAMER and G. R. DABORN — 1477 Ecological evaluation of the Cumberland Basin ecosystem model

P. J. RADFORD and P. RUARDIJ — 1483 The validation of ecosystem models of turbid estuaries

R. J. UNCLES, T. Y. WOODROW and J. A. STEPHENS — 1489 Influence of long-term sediment transport on contaminant dispersal in a turbid estuary
